

# TAN PO HUI

SOFTWARE ENGINEER

## SUMMARY

Hi, I'm a **Web Developer** currently seeking **internship** opportunities for my Diploma program. My core stack is **React and Next.js**. I'm familiar in building web applications using **TypeScript** within these frameworks. Additionally, I also have experience in backend development, particularly with **Node.js and Express**, aiming to become a full-stack developer.

## CONTACT

011-2161-9787

phxx04@gmail.com

76, Jalan Jaya Mas 4, Skudai, Johor

## EXPERIENCE

### Acting Leader

Tsutaya Bookstore | 2022 - 2024

- Guiding temas within 10 members.
- Make decisions in the absence of the regular leader, ensuring that operations continue smoothly.
- Assigning tasks,prioritizing work, taking corrective actions, and updating records.

## PROJECTS

### GoGreen

- Web development assignment with 2 members.
- Build with pure HTML, CSS, JavaScript.
- Apply MySQL and php for backend building.
- User and Admin interface dynamically integrated.

### Game Hub

- React website build with TypeScript, Chakra.UI and fetching API.
- Implement filtering and sorting functionalities.
- Apply popular libraries such as Axios, TanStack Query, and Zustand.

### Issue Tracker

- Full-stack website build with Next.js, TypeScript.
- Modern UIs with Radix UI and Tailwind.
- Use Prisma to integrate with database.
- Implement user authentication with NextAuth.js.
